

ReSource T-Quoter Minimum Hardware Requirements/Installation Guide

Operating System

Windows XP or Vista – 32 Bit Only

Hardware

- Pentium III 1.0 GHz or equivalent
- 1 Gb RAM or more
- 2 GB free HD space
- Report Printer

The higher the processor speed and RAM the better program performance you will experience. Please call Resource Sales at 800-818-0492 for the current configuration we are providing at this time.

Internet Access

High-speed (DSL, broadband, cable, etc) Internet access ***is required*** to use T-Quoter

Installation

1. Visit www.t-quoter.com
2. Click FREE 30 DAY TRIAL, then click DOWNLOAD
3. Complete the download form. Click DOWNLOAD NOW
4. When prompted, click SAVE. Choose a location such as your Desktop
5. Double click the downloaded file,
6. Follow the onscreen prompts to install T-Quoter.
7. When the installation completes, you will have a T-Quoter icon on your desktop. Double click to open T-Quoter.
8. When T-Quoter opens, you asked to choose 30-day trial or enter a registration key. If you have a registration key already, enter it now. Otherwise, choose 30-day trial.
9. When T-Quoter opens, you will be greeted with a first time setup wizard. Follow the on screen prompts to enter your user information.

When entering setup information, you will be asked about your cost base and production hours. These questions are discussed in more detail in the T-Quoter PDF manual (starting approx. page 15 <http://www.t-quoter.com/downloads/t-quotersemanual.pdf>)
